

HAYERLAND®

AIR PURIFIER

AIRPURE19

POWER

53 W

FOR ROOMS UP TO (M²)

80

The **AIRPURE19** air purifier is designed with four filtration technologies, effectively removes molecular pollutants from the air and allergens, making it a lifesaver for someone suffering from asthma. The pre-filter of the AIRPURE19 air purifier removes large particles and pet hair. The professional activated carbon deodorization filter will absorb harmful chemicals such as TVOC and formaldehyde, making the air around you safer to breathe. The included HEPA filter will remove particles less than 0.3 microns from the airflow with an efficiency of 99.97%.

These filters possess the technology of aggressive purification Ioncluster; an air purification system that actively emits positive and negative ions that propagate throughout the room and that will suppress the effects of airborne viruses and effectively decompose and eliminate mold in suspension.

Thanks to its air purity measurement sensor, AIRPURE19 will keep you informed of the current and real air quality of the room, simply by observing the color that appears on its front: blue, light pink, dark pink and red,

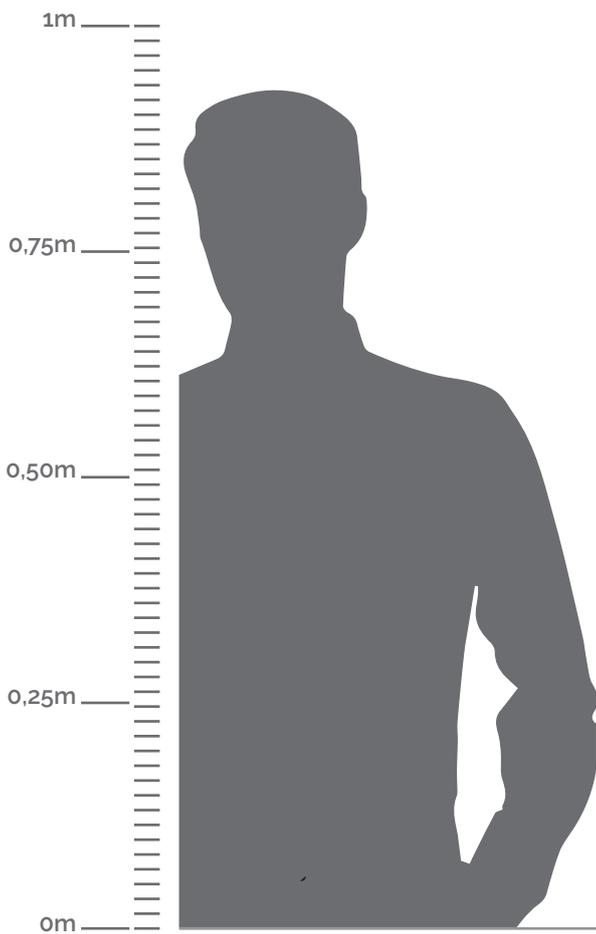

It completes its virtues with a 2-4-6-8-10-12 hours programmable timer, an almost unique sound range in its category, with only 23dB and a smart night mode that is activated as soon as it perceives lack of light in its environment, making its consumption and its sound invaluable.

The most effective way to purify the air!

SPECIFICATIONS
& FEATURES

AIRPURE19

Power	53W	
Ionization concentration	3 x 10 ⁶ /cm ³	
CDR value	315 m ³	
For rooms up to (m²)	80	
Application	Homes, apartments, offices, small shops	
Colour	White	
Ionization generator	IONCLUSTER	
Bacteria removal rate (more than)	99,90 %	
Mold removal rate (more than)	99,90 %	
Virus removal rate (more than)	99,90 %	
Filter type	Pre filter	✓
	True HEPA filter	✓
	Deodorizing filter	✓
Dust removal rate, on the particles small as 0.3 Micron (up to)	99,97 %	
Odor removal rate (up to)	99 %	
Noise level	16-45 dB	
Fan speed (levels)	5	
Healthy Air: Filter replacement alert and lock	✓	
Dust and Odor sensor	✓	
Auto operation base on sensors	✓	
Clean sign indicator	✓	
Smart night mode	based on light sensor	
Sound level in night mode	23 dB	
Programmable timer (hours)	2-4-6-12	
Size of the unit (cm/in)	width	20 / 7,87
	depth	35 / 13,78
	height	55 / 21, 65
Unit weight (kg/lbs)		5 / 11,02
	width	30 / 11,81
Packing size (cm/in)	depth	41 / 16,14
	height	60 / 23,62
		6.2 / 13,69
