

# IW 120

SMALL HEATERS

PRODUCT-NO.: 229339

Quartz heaters supply pleasant radiated IR warmth. These are ideally suited to heating smaller rooms and create a pleasantly warm space on cooler evenings on your patio. The pivoting highly polished reflector targets the heat where you need it most. You can feel the radiated heat as soon as you switch the heater on. For that reason, they are the ideal heat source in bathrooms, on covered patios or in conservatories. Highly heat-resistant quartz rods ensure a long service life. A pull switch controls the ON/OFF functions.

## The main features

Infrared quartz radiant heater with 1.2 kW heating output

---

Immediately pleasant radiated heat

---

Choice of three heating stages (0.4 / 0.8 / 1.2 kW)

---

Easy to adjust and operate

---

Metal casing

---

Applications: e.g. bathrooms, conservatories, covered patios

Type	IW 120
Part no.	229339
Connected load	1,2 kW
Height	145 mm
Width	535 mm
Depth	85 mm

#### Technical data

Power connection	1/N/PE~230 V
Frequency	50/60 Hz
Rated voltage	230 V
Rated current	5,2 A
Type of installation	Wall
Number of heating stages	3
IP-Rating	IPX4
Protection class	I
Weight	1,55 kg
Colour	silver
